Connecting Your VOIPo Adapter (Linksys PAP2T)

To begin using your new VOIPo service, simply connect the VOIPo adapter to your router. Within 5 minutes the adapter should configure itself and be ready to use.

1) Phone - Plug your telephone into Phone Port 1 of the adapter.

2) Internet - Plug the provided ethernet cable into the Internet port of your adapter. Plug the other end of the ethernet cable into your router or modem.

4) Power - Plug the AC power adapter into the VOIPo adapter and plug it into an electrical outlet.

Congratulations â€“ Within 3-5 minutes, all lights on the VOIPo Adapter should be lit and you should be able to make and receive calls.
