

Can I keep my own private phone number inventory?

Saved From: <https://voipo.com/help/article/can-i-keep-my-own-private-phone-number-inventory-25.html>

Yes even though we do have a large availability of numbers it is constantly changing, you can do this to ensure that you have available phone numbers for your clients needs at all times. You can obtain phone numbers for your private inventory by logging into your reseller control panel and navigating into Accounts -> Phone Numbers. You will then see a list of your phone numbers currently in your account, below this list you will see a form to Order Phone Numbers for Private Inventory.
