

Can I control what features my accounts have access to?

Saved From: <https://voipo.com/help/article/can-i-control-what-features-my-accounts-have-access-to-56.html>

Absolutely. You can set what features your accounts have access to by logging into your Reseller Control Panel and navigating as follows: Accounts -> [Click on Applicable Account Username] -> Feature List. You will then be able to check-mark what features the account has available to it.
