

Can I allow my customers to call internationally?

Saved From: <https://voipo.com/help/article/can-i-allow-my-customers-to-call-internationally-61.html>

You can allow outbound international calls for Full Service Line accounts. Simply login to your Reseller Control Panel and navigate as follows: Accounts -> [Click on Applicable Account Username] -> Account Options. You will then be able to specify whether or not this account is allowed to complete international calls and for how many minutes.
