Outgoing Caller ID

Select between sending your outgoing caller ID, marking your call as Private, or blocking all outgoing caller ID information (will typically show as Unknown).

Available under your vPanel Account Management Tool account.voipo.com
1) Click on "Features"
2) Click on "Caller ID - Outbound" on the column on the left
3) In the field "Caller ID Blocked" specify your desired option

Also note that if you have additional "Virtual Numbers" on the account or a verified off-network number you may use this for your Outbound Caller-ID
