Speed Dial (Custom Outbound Route)

Saved From: [*https://voipo.com/help/article/speed-dial-custom-outbound-route-73.html*](https://voipo.com/help/article/speed-dial-custom-outbound-route-73.html)

To setup speed dial, login to the vPanel at account.voipo.com

1) Click on "Features"
2) Click on "Speed Dial" on the left column
3) In the "Speed Dial Code" field, input the numerical code you wish to use (e.g. 15)

4) In the "Forward To" field, input the 10 digit destination number without spaces or dashes

5) Click Create to save this speed dial code

If there are any specific questions on how to initiate a speed dial request, contact support at 877.998.6476 or send an email to support@voipo.com and a live representative will be able to assist you.
