To change the time zone used for Call History and other time-based features,

1. Log in to your VPanel at account.voipo.com.
2. Click the tab labeled "Account". Once the page loads, click the "vPanel Preferences" link on the left column.
3. Use the drop-down menus to select your preferred time zone and time format (12hr or 24hr).
4. Click the Update button to save your changes.
